# SAFETY IS OUR #1 MAIN PRIORITY

Premier Private Jet's safety standards that let you fly with confidence and piece of mind.

# SAFETY

## SAFETY STANDARDS

Your safety is our highest priority at Premier Private Jets. Which is why we voluntarily submit to industry leading safety organizations such as ARG/US and have incorporated Safety Management Systems (SMS) companywide.

At Premier Private Jets, each flight that's released undergoes a flight risk assessment that scores crew pairing, fatigue, complex airports/airspace, time zone differences, and other variables. These measures are all part of the processes that incorporates our Safety Management System (SMS). Another display of industry leading safety practices utilized at Premier Private Jets.

## SAFETY CERTIFICATIONS

Our focus on safety is evident by our voluntary membership to the industry's most recognized organizations.

Current safety ratings include:

### ARG/US GOLD

The ARG/US Ratings due diligence system offers commercial operators, buyers of charter and passengers around the world the confidence and peace-of-mind desired for their upcoming flight.

### WYVERN WINGMAN

Wyvern is an independent business that ensures operators are using stringent practices. As its greatest level of ranking, Wyvern provides the Wingman certification. Here at Premier Private Jets, we are proud of this certification because it means you have picked an operator that has gone the extra mile in security and quality.

# CITATION ULTRA

LIGHT JET PERFORMANCE, FIRST CLASS COMFORT

While they are light jets, our fleet of Ultras are more than capable of reaching heights of 43,000 feet, which is far above poor weather. You'll also reach cruising altitudes quickly as it has a climb rate of 3,000 feet per minute. In addition, the Bravo can be flown by a single pilot. It's truly a superb choice for short and long range executive charters. If you want the space to hold a small meeting and the capability of non-stop flight, this is the choice for you.
